

ON Board

Watergen ON Board is the perfect off grid on-the-go water-from-air solution for different types of vehicles

It's an innovative and simple solution to supply a user with fresh, safe drinking water.

Designed for long-distance travelers, Watergen ON Board generates up to 40 liters of water per day from the air.

Watergen ON Board generates up to 40 liters of clean drinking water from the air daily. Our system can be installed on motorhomes, RVs, caravans,

trucks, buses, luxury and VIP vehicles, trains and yachts.

Our two-part installation includes the roof unit, which generates water from the air, and an internal unit that purifies, stores, and dispenses the water.

Powered by onboard 12V sockets, Watergen ON Board produces water from the air anytime, anywhere fresh drinking water is needed.

ON Board Advantages

Water production and water delivery on-the-go

Provides up to 40 liters of fresh, safe drinking water from air daily

**Easy installation
Works on 12V power source**

Off-the-grid solution

Can be installed in a range of mobility devices, RVs, caravans, yachts, buses and large vehicles

Sustainable solution, reduces plastic waste and carbon footprint

Water production starts from 15°C and 20% humidity

Complies with international drinking water safety standards

Specifications

Water generation capacity	Up to 40 liters/day
Water dispensing	Ambient
Power	12V
Power consumption	480W
Operational temperature	≥15°C
Operational humidity rate	≥20%
Air filtration	Sub-micron barrier filter that eliminates <2.5 particulate matter
Water purification	Multi-step filtration cascade combined with high-end treatment technologies followed by a germicidal UV lamp. Vital minerals balance the water pH to achieve high purification and tasty drinking water.
Noise level	≤ 52 dBA

Applications

Public Transportation

Luxury, VIP & Shared Mobility

RVs, Caravans, Motorhomes

Trucks

About Watergen

Watergen has devoted its innovative technology towards solving the world's water crisis under the leadership of its president, Dr. Michael Mirilashvili. Watergen provides a game-changing water from air solution based on its proprietary patented GENius technology that uses humidity in the air to create clean and fresh drinking water for people everywhere. The company offers a range of Atmospheric Water Generators (AWG) for various applications; the home-office scale GENNY that can produce up to 30 liters of drinking water per day, the medium-scale GEN-M that produces up to 800 liters of drinking water per day and the industrial, large-scale generators that can make as many as 6,000 liters of drinking water per day. Watergen's AWGs are installed in more than 80 countries around the world.
